

Sensors, Systems and Turnkey Projects.
Process Technology from a Single Source.

Know how and equipment
for liquid and gas processing.

- Brewery Industry
- Beverage Industry
- Dairy Industry
- Food Industry
- Pharmaceutical Industry
- Chemical Industry
- Energy Industry
- Power Plants

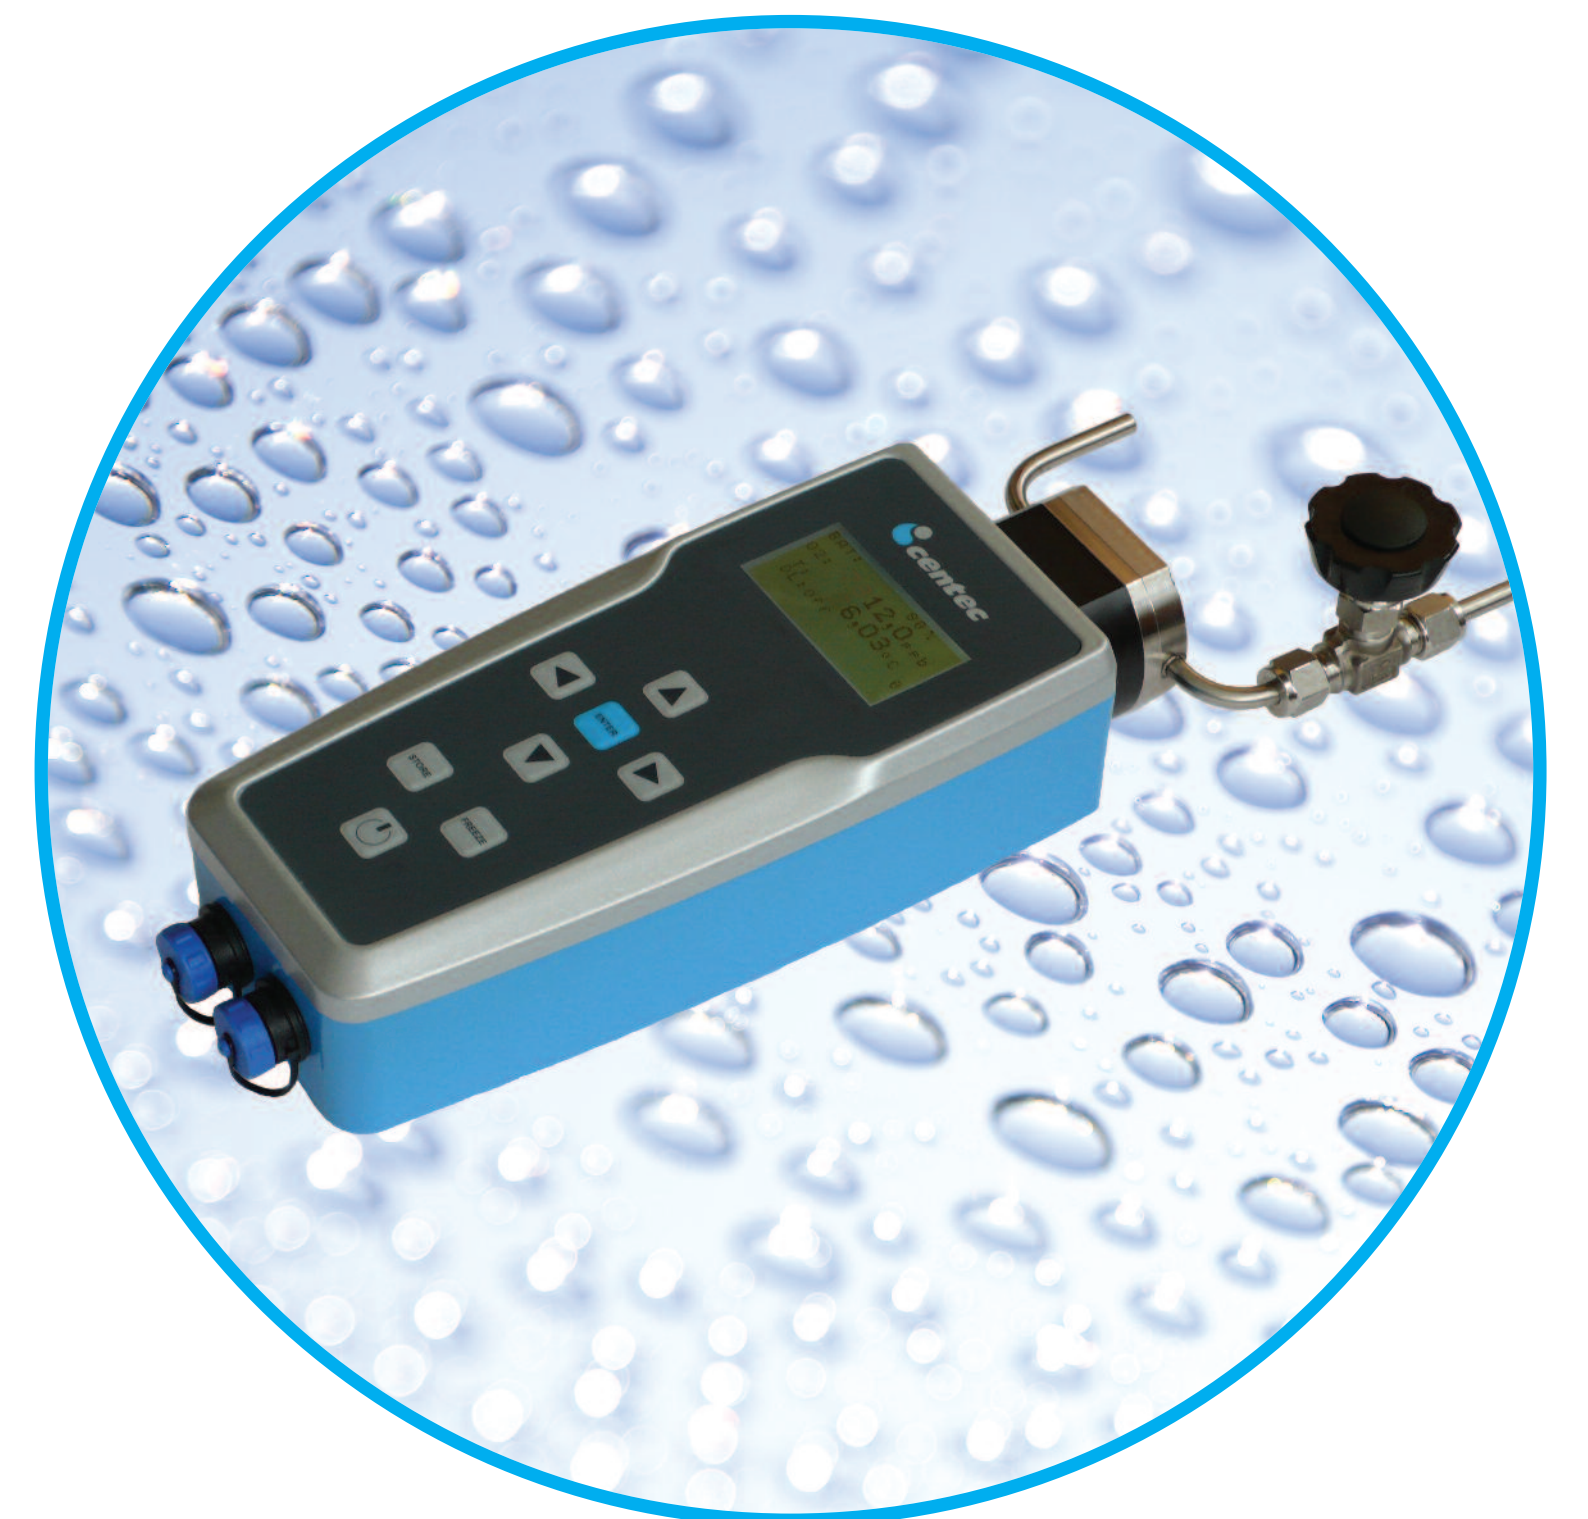

Innovation. Dedication. Centec.

High Precision Sensors.
For Process and Laboratory Environments.

Measurement technology
for most efficient manufacturing.

■ OXYTRANS
oxygen in liquids and gases

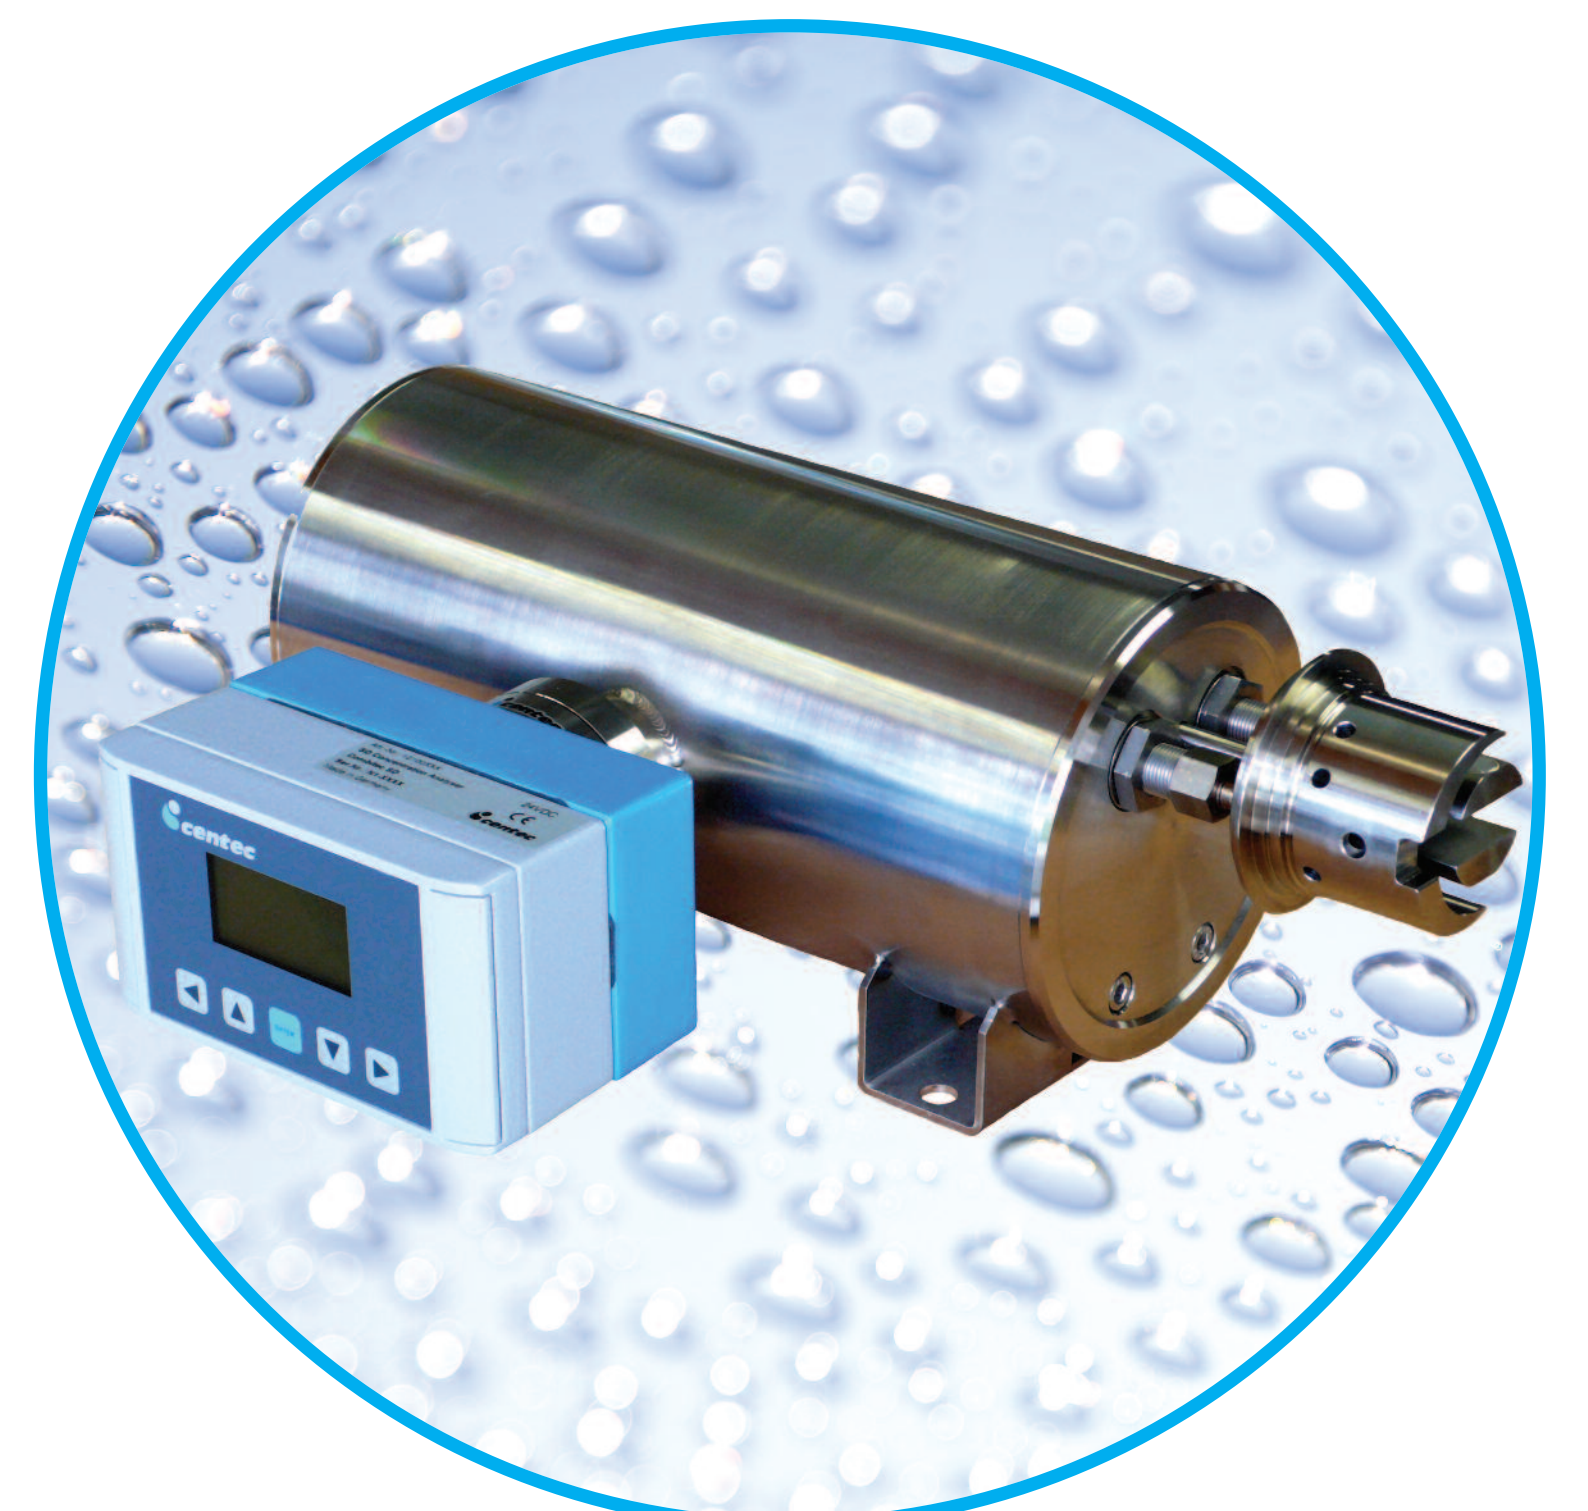

■ CARBOTEC
dissolved carbon dioxide

■ RHOTEC
concentration by density

■ SONATEC
concentration by sound velocity

■ COMBITEC
density and sound velocity sensing

Accuracy. Reliability. Centec.

Fully Automated Process Skids. Designed to Customer Requirements.

Brewery and beverage technology
increasing your competitiveness.

- Water Softening & Demineralization
- Membrane Filtration & Reverse Osmosis
- Column & Membrane Deaeration
- Wort Aeration & Yeast Pitching
- Carbonation & Nitrogenation
- High Gravity & Carbo Blending
- Liquid Mixing & Dosing
- Flash Pasteurization
- Dealcoholization
- Cleaning-in-Place
- Turnkey Project Management

Experience. Expertise. Centec.

Fully Automated Process Skids. Designed to Customer Requirements.

Completely qualified (DQ, IQ, OQ)
and according to FDA and GMP.

- Water Softening & Demineralization
- Membrane Filtration & Reverse Osmosis
- Electrodeionization (EDI)
- WFI Distillation & Distribution
- Column & Membrane Deaeration
- Liquid Mixing & Dosing
- Flash Pasteurization
- Cleaning-in-Place
- Pure Steam Generation
- Turnkey Project Management

Experience. Expertise. Centec.
